

Effective Governance, Excellent Schools

We help state-funded schools recruit for their governor vacancies *free of charge* and have been active in London since 1999.

We place volunteers in vacancies that match their specific skillset, so your new governor will bring the skills your board needs.

We work with a number of organisations such as Lloyds and KPMG to place high calibre professional on governing boards.

All of our volunteers received free support and training so they are to make a positive impact from their first day in the role.

- Whether you're a school or a volunteer, you will receive a Personalised service.
- A dedicated member of our team, will support through the journey, who is experienced in finding governor and schools matches.
- Single point of contact

eLearning

eLearning modules on a number of topics to introduce you to key elements of the role

Webinars

Regular webinars so you can continue your learning and have the opportunity to ask our governance experts questions

GovernorHub
