# Can you help transform young lives?

## We need employers like you..

We provide quality Work Experience placements for students aged 16+ who are at risk of leaving their place of education without a future career goal.

Getting young people access to Work Experience is crucial in providing them with knowledge, confidence and skills when they enter the labour market.

Join our trusted employer network and offer young people the chance to experience the world of work during a 2 to 5-day placement within your business!

### Reasons for your business to invest in young people:

1. **Build future talent** by developing the skills of the industry's next generation
2. **Gain fresh perspectives**, ideas and insights to benefit your business
3. **Identify potential employees** or apprentices from the placement cohort
4. **Enhance your public profile** and demonstrate your Community Support
5. **Develop supervisory and management skills** in your business through mentoring

In summary, investing in work experience placements benefits both employers and young individuals, fostering growth, learning, and talent development.
