

SEND Advisory Service Localities List

The SAS Localities List outlines the SEND Advisory Service teams available for support, including specific advisors assigned to your setting along with their contact information. Advisors are associated with all settings listed above their name, which may encompass a single column of settings or an overarching range of settings, depending on the scope of their role.

This document is intended to help you connect with the appropriate advisor to support your SEND (Special Educational Needs and Disabilities) requirements.

 <p>PSA</p>	<p>Senior SEND Advisors Support the setting in evaluating the effectiveness of the SEND provision. This may be through ongoing support, guidance, appropriate challenge, and training. They will also be involved for escalation and tribunal support.</p>
 <p>Autism Advisor</p>	<p>ASD Advisors ASD advisors work closely with their allocated setting to provide advice and guidance through the SCERTS ethos to support settings in enabling children and young people with Autism to reach their full potential.</p>
 <p>Language Advisor</p>	<p>Language Advisor This team works across all settings to support a whole school approach to the identification, assessment, intervention and review of children with language and communication needs.</p>
 <p>EYs Advisor</p>	<p>Early Years Advisor Their main role is to support PVI settings, Children's Centres, and Childminders in the early identification and intervention for children who may have special educational needs or disabilities agreed between 0-5 years.</p>
 <p>Key Worker</p>	<p>Key Workers This team works in partnership with families, usually within the family's home, by providing emotional and practical support, coordinating practitioners involved in the child or young person's life, and sign posting to relevant services in order to achieve the best child centred outcomes.</p>
 <p>VI</p>	<p>Vision Impairment Team This team provides one to one support and teaching for children and young people with a visual impairment to enable them to become independent and able to participate in nursery/class-based learning. Training, support and guidance are also provided to families and schools as part of the holistic approach.</p>
 <p>HI</p>	<p>Hearing Support Team The aim of this team is to help families and settings give the best possible support to deaf children every step of the way by placing deaf children and young people at the heart of their work through specialist advice.</p>
 <p>MSI</p>	<p>Multi-Sensory Impairment Team Offer guidance, advice and support to schools and families in order to maximise opportunities for learning and inclusion so that children and young people with a multi-sensory impairment can achieve their potential.</p>
