Business School	The Branding Project	For our course we will be doing a 6 week branding project. Learners are to come up with a product they will then apply to topics of branding we will go through per week. This includes: logo (learners will create), slogan, mission statement, target market, brand name, celebrity endorsement and few others. Each session they will complete a few slides of their PowerPoint with the final week asking learners to present their work. Apart from this, each session will start with ice-breaker games.
