Sports
Uxbridge College
Monday 3rd March
1-3pm
5 weeks

Costs to be
confirmed (likely to
be similar to other
programmes)

Students will be taken through some fundamental skills and techniques in relation to a range of sports (plan for a different sport per week).

This will take place in an isolated sporting environment, allowing students to practise the skills learnt.

Following this, students will apply these practical skills and techniques in a competitive environment. **Computing/sports will need pupils to wear a tracksuit and trainers**

SEND
Uxbridge College.
Mon 10th March
10-1pm
6 week programme
£221.88 per pupil

The delivery of the 5-week 14-16 SEND (Special Educational Needs and Disabilities) Business Enterprise Programme focuses on providing students with the opportunity to develop practical skills related to entrepreneurship and business operations. The programme will be tailored to meet the diverse needs of students, offering a supportive and inclusive learning environment. Over the five weeks, students are introduced to key business concepts such as marketing, finance, product development, and customer service. The curriculum will be designed to engage students through interactive activities, group work, and real-world scenarios that encourage problem-solving, communication, and teamwork.

In addition to the core business skills, the SEND Business Enterprise Programme emphasizes the development of transferable life skills. These include building self-confidence, time management, decision-making, and collaborative skills.
