## About STEM Ambassadors

**What does a STEM Ambassador do? They change lives and have an amazing time doing it!**

STEM skills are increasingly essential in today's fast-changing workplace and provide life satisfaction, enjoyment, and amazing career opportunities. We know it. You know it. But not everyone has access to that first initial spark of inspiration. Yet.

Our STEM Ambassador programme supports a network of thousands of amazing volunteers to bring real-life examples of STEM careers into schools, colleges, and universities across the UK. They help to break stereotypes and offer engaging activities to inspire the next generation into the infinite possibilities of STEM pathways.

The STEM Ambassador programme is powered by STEM Learning and funded by [UK Research and Innovation](#).
