

YOUNG PEOPLES VOICE SURVEY

*Calling all secondary
school students*

Last year we had over 300 responses to our survey!

As a result of the survey we have seen; money management, first aid lessons and mentoring put into place.

We have also put on mental health and SEND careers advice sessions to support schools.

More recently data provided to partners has seen a Dragon SEND opportunity as well as potential work experience support (watch this space).

To get involved in the survey please book using the link below or share the forms link with your students, parents and school staff.

Book time to meet with me - for a group session at your school.
