

# flu: 5 reasons to vaccinate your child

The vaccine will help protect your child against flu and serious complications such as bronchitis and pneumonia

## 2. Protect you, your family and friends

Vaccinating your child will help protect more vulnerable friends and family

#### 3. No injection needed

The nasal spray is painless and easy to have

#### 4. It's better than having flu

The nasal spray helps protect against flu, has been given to millions of children worldwide and has an excellent safety record

#### 5. Avoid costs

If your child gets flu, you may have to take time off work or arrange alternative childcare
