

TEN reports, ONE system

FFT's Attendance Tracker is TEN reports in ONE easy to use system. It covers attendance and absence at school level right down to individual pupils. It helps schools to identify and analyse attendance issues for specific year groups, pupils groups and individual pupils. Most importantly, it allows schools to compare their pupils' attendance to similar pupils across the country on a week-by-week basis.

Live week-by-week attendance reporting in FFT's Attendance Tracker is free to all FFT schools - simply log in to Aspire to start viewing your attendance reports.

- Fully automated from collection to reporting with no user intervention required;
- All reports display cumulative (Year to date) attendance;
- New 'Half-termly' view of attendance data;
- Fully interactive charts with 'like-for-like' national comparisons;
- Covid Impact report – measure the impact of Covid-19 on attendance at your school compared to national patterns;
- Deep-dive facility for identifying and targeting persistent absence using 'Attendance bands';
- A range of export options including PDF and Excel – great for meetings or local analysis of data;
- Fully reflective of the DfE's new attendance codes;
- A weekly '360' report that collates all school's key attendance information on one page.

Some recent feedback on the service from schools:

"thanks for the development of attendance tracker. I think that this will be a really useful tool for us!"

"Really excited to see the reports button appear on our page"

"The attendance tracker looks great and it's really useful getting up to date information."

"Colleagues will find this really useful, and we really appreciate the hard work, care and consideration that has gone into developing the report"

"FFT attendance tracker has become an essential part of our attendance strategy"

"This has moved attendance on light years! I now print off the new 360 report for all our Governors and that's it! I used to produce all this data myself but the new report is simple and saves huge amounts of time"
